*Parent company of a group that offers telecommunication services at national level, **Planetel S.p.A.** has developed a proprietary fibre optic network for the ultra-broadband connectivity of about 270 municipalities and provides TLC/IT services to about 49,735 customers in Lombardy, Veneto and Campania, through a multi-channel approach. Among the first Italian Internet Service Providers (ISP and WISP) to gradually develop its position in the telecommunication and system integration market, the company has been able to stand out on the territory as a single player offering integrated digital solutions, ASP / Cloud services and other IT solutions. Planetel, formerly a national phone operator, can now provide Business, Wholesale and Residential customers with fibre optic network connections, with the most advanced ultra-broadband connectivity and integrated communication solutions with FTTH-FTTP (Fibre to the Home – Fibre to the Premises) network architectures; its offer covers the entire value chain of ICT services that allows companies to accelerate their digitization process and time-to-market. Planetel's primary assets include a fibre optic network of approximately 3,098 Km. – CLOUD infrastructure in 5 Datacentres – 111 Planetel Points in 100 Municipalities – 1,200 Cabinets on the ground, etc.*

Planetel's main goal is the strategic development of a high-speed proprietary backbone – up to 1.4Tb/s – which will allow more stable, faster and more secure connections with a guarantee of greater continuity of service for its customers.
